PROFESSIONAL SUMMARY

Senior Full Stack Developer and AI Engineer with 8+ years of experience building scalable SaaS platforms, cloud-native applications, secure APIs, and AI-powered solutions using React, TypeScript, .NET, Python, Azure, and AWS.

PROFESSIONAL EXPERIENCE

Developer | AI Engineer — Cipher Specter Media (2026–Present)

- Develop modern web applications using React, TypeScript, and cloud technologies.
- Design and implement AI-powered features and automation workflows.
- Collaborate with cross-functional teams to deliver scalable software solutions.
- Contribute to architecture decisions, code quality, and engineering best practices.

Lead Developer — 241Runners Awareness (2024–Present)

- Architect and maintain React, React Native, and .NET 8 applications.
- Built authentication, RBAC, case management, emergency contacts, and administrative dashboards.
- Manage Azure infrastructure, APIs, and platform growth initiatives.

Founder & Full Stack Developer — DekuWorks LLC (2021–Present)

- Build SaaS platforms, client software, mobile applications, and AI-powered solutions.
- Lead software architecture, development strategy, and client delivery.

Lead Backend Developer (Contract) — Event Garage Parking (Jan 2026–Mar 2026)

- Architected Django backend services and PostgreSQL databases.
- Built secure REST APIs and backend business logic.
- Supported AWS infrastructure, Docker deployments, and Nginx configurations.

FEATURED PROJECTS

DayPilot • Cipher Jobs • 241Runners Awareness • SoleVault • BookMarked
