

MARCUS BROWN

Senior Full Stack Developer | AI Engineer | Mobile Application Developer

Spartanburg, SC • (864) 524-7473 • marcusbrown0611@gmail.com • [MarcusBr.dev](#) • [github.com/DekuWorks](#)

PROFESSIONAL SUMMARY

Full Stack Developer and AI Engineer with 8+ years of experience building SaaS platforms, cross-platform mobile applications, secure APIs, cloud-native systems, and AI-assisted product experiences. Strong background in React, TypeScript, Flutter/Dart, React Native, .NET, Python, Supabase, Azure, AWS, and end-to-end product architecture.

PROFESSIONAL EXPERIENCE

Developer / AI Engineer | Cipher Spectacle Media 2026-Present

- Develop React and TypeScript applications, AI-enabled workflows, and scalable cloud features while contributing to architecture and code-quality standards.

Lead Developer | 241Runners Awareness 2024-Present

- Architect and maintain React, React Native, and .NET 8 applications with authentication, RBAC, case management, emergency contacts, admin dashboards, secure APIs, and Azure infrastructure.

Founder / Full Stack Developer | DekuWorks LLC 2021-Present

- Lead product strategy, UI/UX, system architecture, development, cloud deployment, and client delivery for SaaS, mobile, web, and AI-powered applications.

Lead Backend Developer (Contract) | Event Garage Parking Jan 2026-Mar 2026

- Architected Django and PostgreSQL backend services, secure REST APIs, Docker deployments, AWS infrastructure, and Nginx configurations.

SELECTED PRODUCTS

Avryo - AI-powered financial platform for account aggregation, budgeting, credit and portfolio tracking, net-worth visualization, and personalized financial insights. *[Flutter, Supabase, PostgreSQL, AI APIs]*

GRIDLOCK - Secure mobile firearm inventory and ownership-record platform with transfer history, digital documentation, and bill-of-sale workflows. *[Flutter, Supabase, PostgreSQL]*

DayPilot - Unified scheduling and productivity platform with calendar integrations, booking, tasks, sharing, RSVP/ICS workflows, and intelligent scheduling. *[React, TypeScript, React Native, Supabase]*

Shuchu - Cross-platform focus and productivity platform for tasks, goals, routines, analytics, and AI-assisted planning. *[Flutter, Supabase, AI APIs]*

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, C#, Python, Dart, SQL
Frontend & Mobile	React, React Native, Expo, Flutter, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Vite
Backend & Data	ASP.NET Core 8, Node.js, Express, Django, REST APIs, Supabase Edge Functions, PostgreSQL, SQL Server, Azure SQL, Firebase
AI Engineering	OpenAI API integration, LLM application development, prompt engineering, AI workflow automation, tool/function calling, chatbot development, RAG concepts, agent architecture, AI feature and SaaS design
Cloud & DevOps	Azure, AWS, Docker, GitHub Actions, CI/CD, Nginx, Git, GitHub
Architecture & Security	SaaS architecture, system design, API design, mobile architecture, OAuth, JWT, RBAC, Row Level Security, secure API development
Tools	Cursor, Codex, VS Code, Visual Studio, Android Studio, Postman, Supabase, Firebase

EDUCATION & CERTIFICATIONS

Western Governors University - B.S. Computer Science (Expected 2026) | **Full Sail University** - Application Development Fundamentals | **Codecademy** - Front-End Engineer Certificate
